

The following language below should be added to your Agency's website in order to comply with ADA laws surrounding the accessibility of information for those who are disabled. If you have any questions or are unsure how to implement this language, please reach out to the LHabermehl@FoundationRP.com.

Accessibility

AGENCY is a DBA of Foundation Risk Partners, Corp. We are committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone and applying the relevant accessibility standards.

The Web Content Accessibility Guidelines (WCAG) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. FoundationRP.com is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standards.

Website accessibility efforts are an on-going process where all areas of FoundationRP.com are reviewed to ensure that WCAG are met on all pages, content, and elements of the website. We will continue to test the **AGENCY** website using assistive technologies in order to ensure we move to full compliance to WCAG 2.0 Level A.

Should you have any questions or are experiencing difficulty accessing our website, please email us at Info@FoundationRP.com.
